

CIAG at The Meadows

Our career describes our journey through life, learning and work and we all need to actively develop our careers, in order to make the best of them.

The Meadows School supports all of our students through a planned programme of activities which help to identify the pathways that are right for each individual and which allows students to manage their careers, sustain employability and achieve personal and economic wellbeing throughout their lives.

Our careers learning journey can be viewed [here](#)

At The Meadows we appreciate certain groups or individual students may need extra help and / or guidance and these groups will be targeted and given differentiated CIAG as appropriate.

Mrs Hart is our careers advisor/careers leader and oversees the careers programme. You can contact Mrs Hart via email to ahart@themeadowsschool.info

The programme is designed to be progressive so that, each year, students will build and develop on the knowledge and skills that they have previously acquired.

The programme will be guided by the Gatsby Benchmarks thus ensuring best practice.

The Gatsby Benchmarks are designed to ensure students:

- Receive a stable careers programme from years 7 to 11.
- Learn from career and labour market information.
- Have their individual needs addressed.
- Link curriculum learning to careers.
- Have meaningful encounters with employers and employees.
- Have experiences of workplaces.
- Have meaningful encounters with further and higher education.
- Receive personal guidance.

Our current progress towards the Gatsby Benchmarks is regularly reviewed via the Compass Careers Benchmark Tool and the most recent results can be viewed [here](#).
